

**June 30th**  
**Clue #1**

**It's noon on June 26, 1921, you're on horseback and just got off Route 59 going toward Demarest Road in West Nyack. You've traveled 5 dusty miles, and know your horse is thirsty. Where is the last public place where your horse can take a drink in the neighborhood? Today, there is a historic plaque to mark the spot. Take a picture of you at that historic location marker and give me the address of the building behind it. Hint: It's not a local stream, lake, or pond. Good luck!**
