The Inheritance Cycle by Christopher Paolini tells the story of a young boy named Eragon and his newly-hatched dragon Saphira. After servants of the tyrant king Galbatorix destroy Eragon's home village, the boy and dragon set out and explore the vast continent of Alagaësia, making allies and encountering dark foes along the way. The four-book series features endearing characters and thrilling battles involving sword fighting and magic. Readers will enjoy watching Eragon mature from a humble farmer boy into a fighter worthy of the title Dragon Rider.
